***Allowable Subject Matter***

Claims 17-27 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach a method of forming a structure surface as a whole, comprising: a step of providing a tool roll having a structure of a wound wire, having cavities therein, wherein the wound wire undulates across the roll (eg. see instant Fig. 13). The undulation is substantially claimed by the last limitation "wherein a distance between the first wire and a reference plane to the longitudinal axis of the base roll sequentially increases and decreases at least once when moving in one direction about a circumference of the base roll" of claims 17 and 22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
